

Nature in Your Neighborhood

Let's discover, investigate, and reflect on the world around us!

name _____

class _____

date _____

teacher _____

- 1** Review: Write down your observations/discoveries from your nature space and your local trees:

- 2** Observation: Let's go deeper into the parts of a tree! List a few tree facts or questions you have as you watch the intro video:

- 3** Action: Tree Factory
Learn about the parts of the tree trunk and create a phrase/motion for each part! See the charts on page 2 to complete this activity. Share your learning with others.

- 4** Up Next: Brainstorming!
Now that we've started investigating a few aspects of the nature in our neighborhoods, what would YOU like to discover? Write down some ideas/questions below:

- 5** Preparation: Before next week you should...
- Observe changes in your nature space
 - Discover one observation or question you have about nature in your neighborhood
 - Find one fun fact about the discovery you want to make next week
 - Explore the Seek App
 - Take lots of pictures!

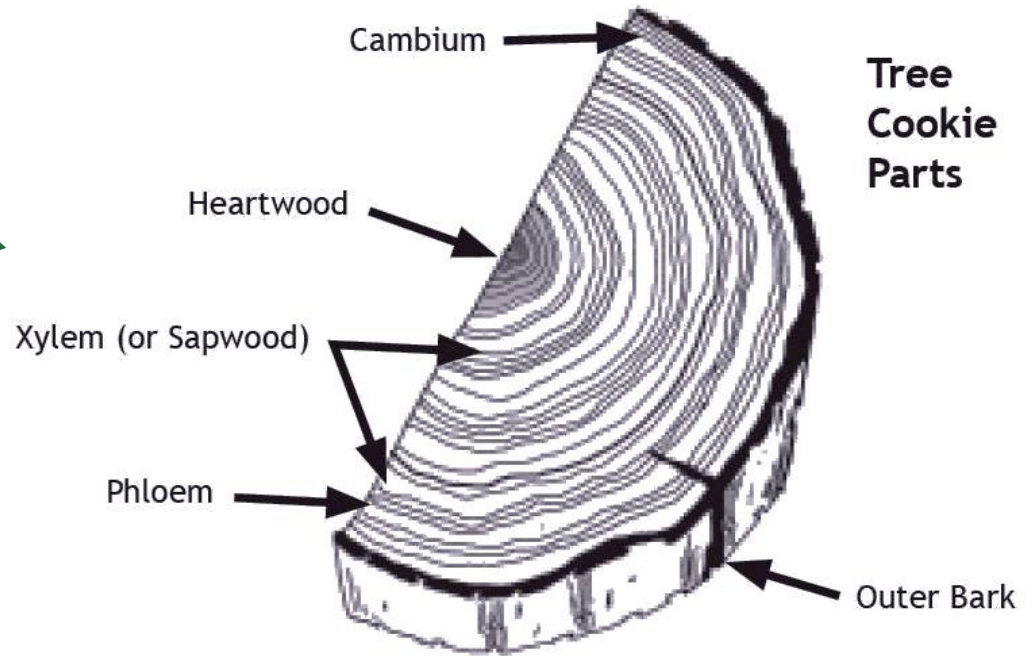

Nature in Your Neighborhood

Let's discover, investigate, and reflect on the world around us!

Fill out the chart below by creating a phrase and a motion to describe each part!

Tree Cookie Parts

Structure	Function	Chant	Action
Leaves	Make food through photosynthesis	"We make food!"	Flutter your hands
Heartwood			
Xylem			
Cambium			
Phloem			
Outer Bark
